Most of our readers have seen the brief biographical sich of the character above named, and have heard his ch of the character above named, and have he see narrated in mournful melody in our street

UNCLE NED.

UNCLE NED.

Oh, he died long ago, long ago;
Se had no hair on the top of his head,
The place where the wool ought to grow.

Cassas Lay down the showel and the hoe,
Hang up the fiddle and the bow,
For there's no more work for peer old Ned,
He's gone where the good darkies go.

His fingers were long, like the cane in the brake, And he had no eyes for to see; He had no teeth for to eat de hos-cake, So he had to let de hos-cake be. Lay down, &c.

oe cold fresty morning Old Ned died,
Oh, the tears down Massa's face ran like rain,
we he knew when Ned was laid in the ground
He'd nebber see his like again.

Digestion is chiefly performed in the stom-ach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state health, called the gastric juice. This fluid is the great solvent of the food—the purifying, preserving and stimulating agent of the stomach and intestines. Without it there can be no digestion, no conversion of food into blood, no nutritio but rather a foul, torpid, painful and destructive condition of the whole digestive apparatus.

Pepsin is the thief element or great digest ing principle of the gastric juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest or est itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making che styled Rennet, the effect of which has long been the special wonder of the dairy. Curdling of milk is the first process of digestion. A call's stomach can curdle nearly one thousand times its own weight of milk. Baron Liebig states, "one part of Pepsin dissolved in sixty thousand parts of water, digests meat end other food." Diseased stomachs produce no good Gastric Juice, Renne or Pepsin. TRECKS OF QUACKS.

Let Evenysor Read this Campully.—There is a Sarsaparilla for alls in the different towns called S. P. Townsen'de Sarsaparilla. It is advertised as the Orling NAL, GENUINE, and all mat. This Townsend is nedester and never was; but was formerly a worker on railroads, canalis, and the like—yet he assumes the title of Doctor for the purpose of gaining credit for what he is not. He says "he has attended two medical schools, and practiced for fines years! "Now the treak is, he never practiced melonine a day in his life! Such wolful, wecked misrepressensing looks had to the character and wractity of the man. I was most sincerely, he had never made those statements of him sell or of me. When will mee learn to be honest and trushful in all their dealings and intercourse with their fells in men! He applied to one Heal Chap to easist him is man ufacturing his miniture, stating the large sums he woul make, as an incustoment to embark in the business. Thus men have been insulting and libelling me in all possible forms, in order to impress the public with the belief that the Old Pootor's Sarsaparille was not the genuine, eviging Sarsaparille, made from the Old Doctor's Original Respired. This is a featured to this His statement of Thompson, Skillman & Co., are nothing but a timus of falsehoods, simply made to decreive the public, and the potential product one single solitary proof of this. His statement of Thompson, Skillman & Co., are nothing but a timus of falsehoods, simply made to decreive the public, and the potential product one single solitary proof of this. His statement of this his statement of the truth down in regard to his nouring, fermenting emported. This is no caution the public to purchase none but Old Doctor's likeness, his family Cost of Arms, and he magnatures the Cost of Arms.

Old Dr. Jacob Townsend

THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla. Oil Dr. Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENIELA." Being poor, he was compelled a limit its manufacture, by which means it has been kept on of market, and the sales circumscribed to those oily who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, preclaimed its wonderful.

HEALING POWER.

This GRAND AND UNEQUALLED PREPARATIONs manufactured on the largest scale, and is called for through out the length and breadth of the land, especially as it is found incapible of degeneration or deterioration.

Unlike young S. P. Townsemi's, it improves with again of the second of the land, especially as it is found incapible of degeneration or deterioration.

Unlike young S. P. Townsemi's, it improves with again on the constance of the second of the lands of the properties of the state discovering of the art, have all been brought into requisition in the manufacture of the Old Dris Sarmaparilla. The Sarmaparilla rose, it is well known to medical men, contains many inclicant properties, and some properties which are insert a tassian, and others, which if retained in preparing it for use, preduce fermentation and acid, which is injurious to the effect. Some of the properties of Sarsaparilla are so towns that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific processes, known easily to those experienced in its manufacture. Moreover, these tolardie processings, which if you in vapor, or as a subhalation, under heat, are the very essential medical properties of the root, which you not all in value.

Any person can boil we seew the rose till they get a dark colored liquid, which is more from the coloring manure in the root than from anything size, they can then strain this institute of the SARSAPARILLA EXTRACT or STRUP. But such is not the article known as the GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA. SARSAPARILLA.

This is so prepared that all the inert proposites of the Sarsaparilla root are first removed, everything capable of becoming acid or farmentation is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered uncapable of lossing any of its valuable and healthr properties. Prepared in this way, it is made the more powerful agent in the Curre of farmenmerable Discenses.

Hence the reason why we hear commendations on every the tree by more and children. We define
